

# Microsoft 365

Office 365, Windows 10,  
and EM+S – a complete,  
intelligent, secure solution to  
empower your employees to  
become productive

# Microsoft 365

The workplace is transforming—from needing to accommodate changing employee expectations, more diverse and globally distributed teams, to an increasingly complex threat landscape.

To help organisations thrive in this modern workplace, Microsoft 365 has brought together its most popular business solutions, Office 365, Windows 10, and Enterprise Mobility + Security, in one complete, intelligent, secure solution to help your employees become more productive.

Tailored to your business needs, Microsoft 365 Enterprise and Microsoft 365 Business address the needs of the largest enterprise to the smallest operation.

Together, Microsoft and Cobweb are in a unique position to help companies empower their employees, unlocking business growth and innovation.

# Microsoft 365 Business and Enterprise adoption and migration

Microsoft 365 Business is available in public preview (from 2 August 2017, and will become generally available later in 2017).

Microsoft 365 Enterprise is offered in two plans—Microsoft 365 E3 and Microsoft 365 E5. Both are available for purchase as from August 1, 2017.

There are certain strategies a business can adopt to make the rollout of Microsoft 365 a success. A three-stage approach can be useful:

## Envision

Identify key stakeholders, assemble an adoption team, and identify and prioritise business scenarios to create a success plan for the adoption.

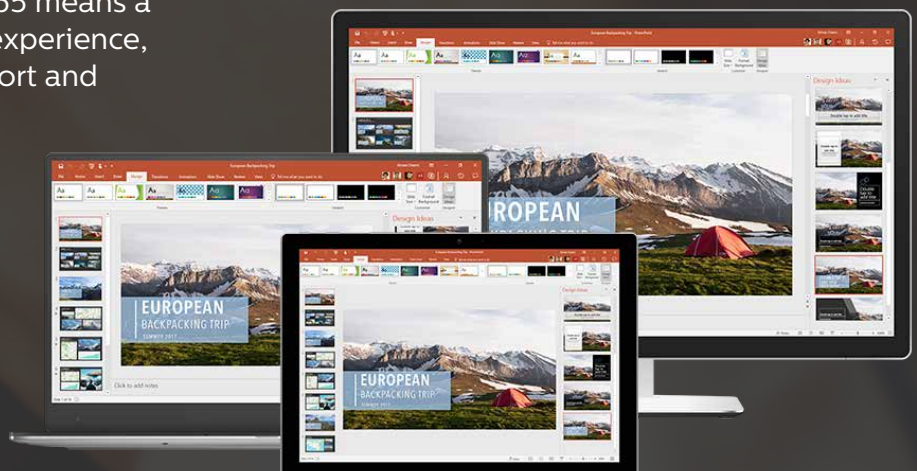

## On-board your organisation to the new technology

Start with an early adoption programme for specific areas and expand to cover the whole organisation

## Drive Value

Realise ongoing value from the Office 365 investment by continuing to boost user engagement and drive adoption. Pre-rollout and following the launch, generate awareness and excitement!

Moving to Microsoft 365 means a worry-free migration experience, with world-class support and ongoing assistance
